# Photography Camera Settings

## About the Course

This course is designed to help beginners gain confidence in using a digital camera. Whether you're just starting out or need a refresher, this course will guide you through the essentials. If you don't have a digital camera, don't worry - one will be provided for you during the lessons. Throughout the course, you'll learn about the various camera controls, including shutter speed, aperture, focus, zoom, ISO settings, and menu navigation.

## Course Learning Outcomes

- Identify the use of camera controls
- Follow how to use cameras and lenses safely
- Understand the numbers used in camera settings

*Please note: To successfully complete this course you must commit to 100% and above attendance and punctuality.*

## What is needed for the course

There are no prior learning requirements for this course. However, learners may find it helpful if they've already used a digital camera before, camera phone or taken any previous photography courses.

All equipment will be provided to you on this course if needed.

*If you need any additional support, please call us:*
